## BUILT TO LAST

100% anticorrosive protection:  
sturdy galvanized frame  
and *304 STAINLESS STEEL* body.

## Great capacity

Trough with a volume of  
77 litres.

## Power and Control

A powerful 0.12kW single-phase motor  
moves a lightweight aluminum fan.

Power Regulator is yours  
to use as you wish:  
choose between a small  
breeze and a strong  
airflow.

## Easy and simple operating

Thanks to its adjustable feeding gate and  
its adjustable front gate,  
FALKOM® Olive Cleaner can be adapted to  
work at your pace and in accordance with  
the characteristics of the crop.

## Ergonomic

Excellent working height.  
Sturdy wheels and handle for easy  
transportation.

## Silent

Without any mechanical parts in contact,  
FALKOM® Olive Cleaner  
is extremely silent.

| Technical Features FALKOM®  |                   |

| Motor                       | Single phase 220V |
| Power (kW)                  | 0.12kW            |
| Weight (KG)                 | 30KG              |
| Dimens. L*W*H (mm)          | 800*520*1200      |
| Capacity of Trough (litres) | 77                |
| Production (KG/h)           | Up to 500 KG/h    |

## No mixing

Debris exit the machine at the front gate  
and fruit come out at the back gate.

Leaves  
Dried twigs  
Dust  
Other debris

Only clean product!

## Adjustable

FALKOM® Olive Cleaner works fine  
with any product that can be  
cleaned by airflow.
